

Approach to medical care industry

LINE UP

Injection Molding Machines

- Die locking force:20~350t Injection Molding Machines
- ▲ Die locking force:450~1300t Injection Molding Machines

Extrusion Machines

- Twin-Screw Extruders

Machine Tools

- Double Column type Machining Center
- ▲ Vertical Boring and Turning Mill
- Horizontal Machining Center

Electronic Controls

- SCARA Robots

SHIBAURA SEMTEK CO., LTD.

- Investigation of medical parts
- Physical character testing
- Analysis of organic and inorganic material
- Investigation of foreign matter
- Investigation of the fuse components

- Investigation of manufacturing environment
- Air cleanliness measurement of clean room
- Bacteria, air quality measurement
